Notes: A breakdown of awards amounts for various categories—including program area and county—is available in a PDF file linked from the home page under Accountability & Transparency/All Stimulus Funding; see <http://recovery.delaware.gov/documents/Funding-List.pdf>. This report presents award amounts, recipient names, and geographic data, but not project description, project status, or jobs data.

Under the Agency Stimulus Reports section (<http://recovery.delaware.gov/reports-agency.shtml>), separate files organized by agency profile individual projects, but there is no comprehensive list available for viewing or download. The information contained within these reports varies but can include recipient name, award amount, project description, project status and jobs data. Transportation documents are the most informative. Due to the limited and varied data contained within these separate reports, no further points are awarded for Contract/Grant and Recipient Jobs Data details.

Spending allocations and jobs data totals by program and statewide are available in a PDF file called “Public Jobs & Expenditure Report” (<http://recovery.delaware.gov/documents/Public-Jobs-Expenditure-Delaware-Stimulus.pdf>) available in the Reports section of the website at <http://recovery.delaware.gov/reports.shtml>.

A Google map shows individual project locations with award amount and type of grant at <http://recovery.delaware.gov/recovery-map.shtml>. The data contained in this map are available for download in KML and KMZ form for use in Google Maps and Google Earth, but not in spreadsheet form, so no points are awarded for data downloadability. No recipient names, jobs data, or project status information is provided on the map.

The search box covers the data (recipient name, program name) in the PDF reports posted on the website.
