Notes: Spending allocations by broad and narrow categories are illustrated through a bar graph at <http://www.iowa.gov/recovery/impact>.

An interactive map at <http://www.iowa.gov/recovery/jobmapping> provides individual project location, recipient name, project description, award amount, project status, and jobs data (including classification, type and number of hours). The data on the map can be filtered by agency, work group, county, or postal code. Filtering by county shows groupings of projects within the county, but no overall county totals.

A statewide job total is disclosed in the text above the map. Job totals by occupation are also available at <http://www.iowa.gov/recovery/staticpages/index.php?page=jobdata-old>.

The search function of the website does not cover contract data.

Individual project data can be downloaded in an Excel file from the section below the map at <http://www.iowa.gov/recovery/media/financeandjobsbyproject.xls>. Data fields include: recipient name, recipient city and zip, project location, award amount, FTE.
